

PRESS RELEASE

Train the Trainers Workshop

The Tibetan National Sports Association based in Dharamsala is organizing a six day workshop at Tibetan Children's Village School Dharamsala from 21 to 26 November 2011 for physical education teachers of nine Tibetan schools that will start girls' football clubs in their school from coming academic year.

The primary objective of this workshop is to make the game of football more popular among the girls from the grass root and to equip our trainers at the school level with the basic technique and strategies so that they can impart right skills to our budding footballers at the right age. In future TNSA hopes to have plenty of young talented girl players and form a Tibetan women football team.

This workshop jointly organized by TNSA and Cassie Childers, a woman footballer from USA who has experience in such programs. We have resource persons in Sport Psychology, Sports Medicine and Yoga.

Most of the participants are Physical Education Teachers and some with passion and experience in the field.
